

# Mack Chassis - Incorrect Fog Lamp Electric Terminal Pinning - AN, GR, PI Models

> Internal Content

Mack Trucks can be equipped with 2 different versions of fog lamps. Each version is pinned differently. Electrical Schematics Viewer (ESV) only shows one version.

The fog lamp version not show in ESV is PN - 84722510 and can be found on Mack models AN,GR, and PI with a stainless steel bumper installed.

Not Found in ESV	
Fog Lamp P/N	Harness P/N
84722510	21074988

The correct schematic can be found [here](#).
