Customer Satisfaction Program 21B36

Ford Power-Up

Customer Satisfaction Program 21B36

We fine-tuned your Phone As A Key software to help improve reliability and reduce potential Bluetooth disconnection when unlocking or starting your vehicle. This completes customer satisfaction program 21B36.

Ford Power-Up software updates like this let us fix bugs or make improvements without the inconvenience of asking you to leave home. At Ford, we value your satisfaction, and we respect your time.
