(ECG)  
3.5.2

Alexa Built-in, the road-going version of Amazon's ever-helpful assistant, is coming to your vehicle soon. This update helps prepare your vehicle for Alexa Built-in and other future improvements. Stay tuned because another download will arrive soon to complete the process. Because of its complexity, this update may take longer than usual.

Ongoing updates like this help you enjoy the best possible version of your Lincoln Nautilus™ SUV.

Alexa Built-in

Most of Alexa Built-in has now been downloaded, with the final piece arriving in a few more days. Then you can wake Alexa up. Make a call, check the weather, interact with your smart-home devices, make a shopping list. Just about anything you use Alexa for at home, you'll be able to do in your vehicle. Plus, add Lincoln Streaming and listen to music and podcasts too.

Activate Alexa when the icon appears on your SYNC® Technology screen. Just click on it and follow the steps to register. Keep in mind that your Lincoln Nautilus™ SUV must have enhanced voice recognition and an activated modem. And, of course, you'll need an Amazon account.

Your first three years of Alexa access are on us (streaming media services not included). That three-year clock starts ticking the moment the Alexa icon appears, so don't wait to set it up.

Go to your Lincoln Account or Lincoln Way App™\* to learn even more.

Advanced Dual Phone

Access two phones at the same time without having to mess with the settings. You could, for example, easily access both phones for incoming calls, contacts, text messages, emails and more.

Screen Resizing

When you're using Apple CarPlay®, you can now make it appear on your touchscreen in the size you prefer.

Digital Owner's Manual

We made sure what you need to know is in there and easy to find. Go see it at [Lincoln.com/support](http://Lincoln.com/support), in-vehicle or in the Lincoln Way App™.
