What is the issue? Vehicles exposed to a corrosive environment where road salt is used extensively during winter months could experience a seized rear suspension toe link ball joint resulting in a fractured rear suspension toe link.

What is the risk? A rear toe link fracture may cause a loss of steering control, increasing the risk of a crash.

What will Ford and your dealer do? **Parts are now available to repair your vehicle.** Ford Motor Company has authorized your dealer to install updated rear toe links free of charge (parts and labor) under the terms of 21S32.

Additionally, for customers who receive the updated rear toe links under program 21S32 prior to July 31, 2023 and subsequently have a knocking noise coming from a rear suspension toe link ball joint. Ford Motor Company will provide a no-cost, one-time repair to both toe link ball joints under customer satisfaction program 22N01. Eligibility will expire six (6) months from the Repair Order date of 21S32.

Completion of 21S32 automatically completes all prior Toe Link Field Service actions (16S18, 17S11, 18S43, 19S17, and 20S62) that may apply to your vehicle.

How long will it take? The time needed for Recall 21S32 is less than one-half day. However, due to service scheduling requirements, your dealer may need your vehicle for a longer period of time.

What should you do? Please call your dealer without delay and request a service date for Recall 21S32. Provide the dealer with your VIN, which is printed near your name at the beginning of this letter.
