

## 1.2.185 Consumer Facing Release Note for OTA

### UPDATES, PERFORMANCE IMPROVEMENTS & FIXES

Lucid Air.

Before beginning this update, make sure your vehicle is not plugged in.

- We made improvements to your Lucid Air's onboard connectivity, diagnostics, and wireless communications system to provide a better experience for over-the-air updates.
- We enhanced and added new functionality to your Lidar sensor to prepare for upcoming features that will be sent to your vehicle over the air.
- We resolved an issue that may have temporarily interrupted the expected operation of your vehicle's climate controls.
