MY2023 Z (Z34), with manual transmission	174	16	October 5, 2022	YES

*******Dealer Announcement*******

Nissan is committed to a high level of customer service and satisfaction. This commitment requires Nissan to periodically place certain vehicles on temporary Quality Assurance (QA) Hold to ensure that these vehicles, as delivered to our customers, meet our exacting standards and our customers' expectations.

Effective immediately, Nissan is placing a temporary Quality Assurance Hold on all 2023 Nissan Z vehicles equipped with manual transmission due to a potential customer satisfaction issue impacting performance. Affected vehicles are subject to stop sale and are either currently in dealer inventory or assigned and in transit to the dealer.

*******What Dealers Should Do*******

1. Please **do not retail** the specific vehicles in dealer inventory subject to this quality hold. In order for Nissan customers to have the best experience, please discontinue test drives in the affected vehicles.
2. Nissan is currently investigating a potential customer satisfaction concern regarding performance of the second gear under certain driving conditions. Additional information on next steps will be provided as soon as possible.
