### Product Change Notice - Power Bimini stand-off leg

Dear Valued Customer:

Please be advised, Lippert intends to change the end of the Power Bimini stand-off leg extrusions from a in-house fabricated end, to a sourced stand-off end cap with a clean edge.

The change is being made to eliminate the rougher end of the in-house fabricated stand-off leg and improve product quality.

There is no change in fit, form, function or installation with the new stand-off leg. There is no price change and no part number change for the Bimini system. The end cap part numbers are listed below the photo and will be included in the bill of materials. The change is expected to begin before mid-October on a running basis.

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

**Scott McKinnon**  
Product Manager
