2015-2022 F-150, 2017-2022 F-Super Duty - Tailgate Step Assemblies - Trim Cover Replacement

Some 2015-2022 F-150 and 2017-2022 F-Super Duty vehicles may experience issues with the tailgate center step moulding. If there is an issue with the center molding (warped, damaged condition, loose, or if the molding is missing), the trim cover is now available separately. It is no longer necessary to replace the entire rear step assembly (402A48).
