

ANB4 - Retrofitting Locking Caps on the Front Left and Right Headlights (Stop Delivery / Recall Campaign)

Model Line: **Boxster / Cayman (981)
718 Boxster / 718 Cayman (982)**

Model Year: **As of 2012 up to 2022**

Country /
Market: **USA (C02)
Canada (C36)**

Concerns: **Caps in luggage compartment**

Information: **There is a possibility that a locking cap that prevents the adjustment of the headlights in the horizontal direction was not installed during vehicle assembly on the affected vehicles. If this is the case, certain legal requirements will not be met in the USA and Canada markets.**

Action required: Check installation of the caps and retrofit a cap in the front luggage compartment on the left and right if necessary.

Information

Every vehicle is exactly assigned just two campaign scopes.

⇒ To find out which scope is assigned to the vehicle, see PCSS Vehicle Information.

Affected Vehicles: Only vehicles assigned to the campaign (see also PCSS Vehicle Information).

Installation

Position:

Installation position of caps (example 718 Spyder 982)

1 – Cap (retrofit)

Important Notice: Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche PIWIS diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the PIWIS Tester are the ones that must be followed.
