

2022 MY F-150 Lightning
(SYNC)
22-PU1110-SNC-RS

While you may have seen this update before, we're resending to ensure some housekeeping features are included to help further enhance your user experience.

Games

Looking for something to do while charging up your F-150® Lightning™ truck? Now turn that downtime into playtime with a game of DoubleSum, where you can show your knack for numbers. Only available on Lariat and Platinum models. For more information on these features, visit [Ford.com/support](https://ford.com/support) or your digital Owner's Manual.

Remote Pro Power Onboard Control

With this latest update, you can now remotely turn the Pro Power Onboard outlet both on and off from virtually anywhere using the FordPass® App. So, those tools or tailgating essentials you plugged in can be powered up or down right from the palm of your hand. It's kind of like having a magic wand!

Plus, you can always monitor your power usage through the center touchscreen or the FordPass® App.

Dynamic Screen Resizing

When you're using Android Auto™ or Apple CarPlay®, you can now make them appear on your touchscreen in the size you prefer.

Ongoing updates like this help you enjoy the best possible version of your F-150® Lightning™ truck. Android Auto is a trademark of Google LLC. Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries."
