10/04/2022

For any 2018 – 2022 Wayfarer motorhome that comes into your service center for repairs, please check the wheel liners for proper securement and verify they are not loose, missing screws, or misaligned.

Locate the fasteners used and verify they are correctly installed and not pulled through the plastic liner. Secure wheel liner if loose or interfering with the tires. If you need any assistance, please contact dealer services at dealerservices@tiffinmotorhomes.com .

Thank you,

Tiffin Motorhomes
