TBM – “Battery of Maserati Connect Module is temporarily low” Message

DATE: AUG 3 2022

The purpose of this document is to provide additional information regarding a possible failure message of the Maserati Connect Module (TBM).

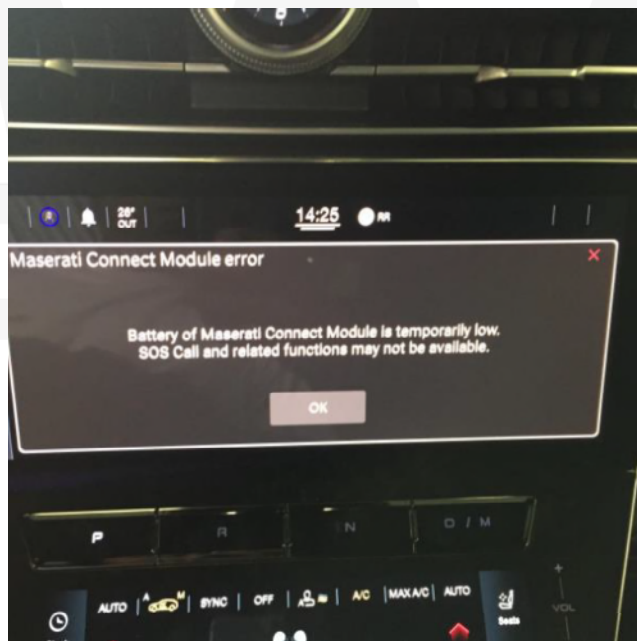

MODELS: M182 Grecale

SECTION: 08.71 – 1 IT SYSTEM

SUBJECT: Message on the infotainment display "Battery of the Maserati Connect Module is temporarily low".

CONDITIONS: No specific conditions.

DTC in ECU: None.

Picture 1 – Example of Maserati Connect Module error

This message refers to a low state of charge of the backup battery for the TBM module. NO diagnosis is necessary and may not indicate a fault. If the message appears, the TBM module will recharge the battery during normal use of the vehicle.
