

New Option

We are announcing the first release associated with the MY23 GM factory-installed radio. This release is specifically designed for the body speaker interface and the number is: B2604-06-000. It is only required on quotes that call for both a MY23 GM chassis and one of the TBB body speaker sales codes: B260305004, B260306002, or B260313000.

- The B2604-06-000 is available to be ordered today. The sales code description is listed below.
- This is the first of four expected releases as it relates to the new MY23 GM factory-supplied radio and only applicable for the body speaker options.
- Separate releases for the Noise Suppression, Page, and Noise Suppression / Page combination are forthcoming as they are designed by engineering.
- We ask that dealers submit change orders for quotes outside of the frozen zone to add B2604-06-000. This is a required change and not subject to change order fees.

**B2604-06-000**  
MY23 GM radio to body speaker connection

**Summary:**  
Body speaker connection

**Availability:**  
DRW, SRW

- This code identifies a bus that only requires an interface between the OEM radio and the body speakers.
- Required for all body speaker only options.
- **Note:** This is not applicable with any noise suppression or page systems.
