

2022MY F-150 Lightning
(ECG)
4.1.1

Here's the Latest Just for You

We've made improvements to the software update process, including the ability to enter your vehicle using your Key Fob during a non-drivable update.

You'll also now receive new pop-up alerts to inform you when a precondition is not being met so that you can take the required action to receive your update. For a non-drivable update, preconditions may include that your vehicle is parked, it's not running, all the lights are off, doors and trunk are closed, and you're not pressing the brake pedal.

Ford Power-Up delivers software updates that are designed to make your F-150® Lightning® truck better over time.

2022MY F-150 Lightning
(SYNC)
4.1.2

New Updates. New Options. New Surprises.

For F-150® LARIAT and Platinum:

SYNC® 4A With Even More Wow

You may have noticed that things look a little different on your vehicle's 15.5-inch SYNC screen today. That's because we just unveiled a new, modern design that will make it simple to find your favorite settings and controls, create your personal profile, access Ford Power-Up software update details and even set your cabin temp using the audio volume knob.

Yes, you did read that correctly. The volume knob can now be used to control the cabin temperature, fan speed and heated seats. To use these new controls, just tap the temperature, fan or heated-seat screen control once, which will enable control of the feature when turning the volume knob. Then take it for a spin and stop when you reach your comfort zone.

But wait, there's even more:

Home Screen — Simple refinements to help improve navigation

Status Bar — New icons to help you find your favorite features quickly

Settings and Controls — Consolidated so you can easily access drive modes and software update details

Personal Profile — Personalize your in-vehicle experience with a personal profile, now easily accessible from the status bar

Software Updates — In-vehicle scheduling is easy now that you can choose preselected days and times based on our recommendations or pick your own to create a custom schedule to better fit your lifestyle

For F-150 XLT and Pro:

This update will prepare your vehicle for future updates.

We hope you enjoy discovering and using these new features and enhancements. Ford Power-Up delivers software updates that are designed to make your F-150 Lightning® truck better over time.

4.1.3

News Flash — Your Entertainment Options Just Got Better
For F-150® LARIAT and Platinum:
Video Streaming

Charging your vehicle is about to get way more entertaining. That's because you can now watch video streaming services on your SYNC® 4A Technology screen. Follow what's happening in the world, catch up on your favorite TV shows, check out a how-to, laugh at silly videos ... however you prefer to pass the time while in Park. No judgment here. All you need is a Ford Streaming Connected Service plan or Wi-Fi connection to let the entertainment begin. Available in US Only.

Game On

Bridge Battle is a strategy game played between two players or the computer. To win, you must create a bridge from one of your sides to the other before your opponent does. And, if you like puzzles, you'll love Parking Lot. The objective of this game is to find a pathway to get your hero car out of a busy lot.

Wi-Fi From Wherever

This convenient Ford Power-Up software update allows you to connect to public Wi-Fi hotspots through SYNC® from virtually anywhere.

So, whether you're sitting in a restaurant's parking lot enjoying a lunch break or waiting outside a retail store or coffee shop, you will be able to connect to public Wi-Fi through your SYNC screen. Then it's just a matter of being redirected to accept any terms and conditions and voilà — you're online.

Take advantage of this feature so you can download software updates fast, get seamless access to popular news and entertainment platforms and more, right on your in-vehicle screen.

For all F-150® Lightning® trucks:

Easy Listening

Improvements have also been made to make using the Apple CarPlay® App easy. And come on, who doesn't want to hear some awesome tunes or a favorite podcast while driving?

Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries.

We hope you enjoy discovering and using these new features and enhancements. Ford Power-Up delivers software updates that are designed to make your F-150 Lightning® truck better over time.
