Release Date: December 2022

Symptom/Vehicle Issue: Radio Will Not Turn On

Discussion: Radio won't turn on after ignition on. The customer must press the power button to turn the radio on. Verify the Auto-On setting for the radio. The setting is in Media → Audio Settings → Auto On Radio. The customer will want to select "ON" or "Recall Last".

Resetting the radio may also correct this concern and setting.

Do not replace the radio, TBM, or battery for this concern.

This document does not authorize warranty repairs. This communication documents a record of past experiences. STAR Online does not provide any conclusions about what is wrong with the vehicle. Rather, it captures all previous cases known that appear to be similar or related to the vehicle symptom / condition. You are the expert, and you are responsible for deciding on the appropriate course of action.

Contact STAR Center, or your Technical Assistance Center Via TechConnect, eCONTACT or Service Library entry if no solution is found.
