Midsota/Novae dealer,

From Lippert this e-mail will serve as our formal notification regarding Lippert Recall 22E-074 involving specific 12” hub assemblies produced by our Indiana manufacturing facility and supplied to Novae Corp. Our Production dates included in this recall are April 20, 2022, and May 6, 2022. The attachments to this email include our formal Letter of Notification as required by the National Highway and Traffic Safety Administration and our inspection/repair instruction document.
Also attached are vehicle reports provided by Midsota listing your affected trailers with hub assemblies involved in this recall. Our records indicate we have shipped a quantity of 4 axles (2 trailers) with two hub assemblies per axle to your location.

Please follow Lippert’s inspection/repair document for guidance on affected axles. Claims for labor are to be sent directly to Lippert per their instructions on this document. Midsota has provided all requested info for warranty preapproval on all affected axles and trailers directly to Lippert and any further info you need to supply is explained in Lippert’s inspection/repair document.

You will need to contact the end customers affected to line up inspection. Please contact Lippert directly with any questions or concerns. Please email Midsota with the vin and date when inspection complete for tracking purposes.

Thank you in advance for your attention to this matter.
