IMPORTANT ANTI-THEFT SOFTWARE UPGRADE AVAILABLE ON YOUR VEHICLE AT NO COST

(Insert VIN)

January 19, 2023

Dear Kia K5 Vehicle Owner:

You may be aware of media reports regarding risky social media “challenges” encouraging young people to break-in and steal certain Kia vehicles. These challenges target Kia vehicles equipped with a **steel key and “turn-to-start” ignition system**. In response to this new phenomenon of online theft promotion, we began taking steps to try to address this criminal activity by providing steering wheel lock devices to interested local law enforcement agencies in certain affected areas, to be distributed to concerned Kia owners at no cost.

Our records indicate that you may own or lease a potentially affected vehicle, and we are reaching out to let you know we have now developed a **software upgrade that can be installed on your vehicle to restrict operation of the vehicle’s ignition system should your locked vehicle be the subject of a break-in and theft attempt without the key**. This software upgrade will be available to you **free of charge** for eighteen (18) months from the date of this letter. When you complete the software upgrade, we will also provide you with **window stickers** that can be applied to your vehicle to discourage a break-in.

What Should You Do?

Please contact your authorized Kia dealer to arrange for the software upgrade to be performed on your vehicle **BEFORE AUGUST 1, 2024, AS THIS IS A LIMITED TIME OFFER**. As mentioned above, this upgrade will be performed **at no cost to you**. The estimated time required to perform the upgrade will be approximately one (1) to two (2) hours, however, depending upon shop scheduling, your vehicle may be needed longer. We recommend scheduling a service appointment to minimize any inconvenience.

Most dealers provide online service scheduling. To find your nearest dealer, visit www.kia.com and click the “Find Dealer” button in the upper right corner (“Dealers” on a mobile device). You can also use the QR code below with your mobile device to access this information (*see the bottom of this letter for more information about QR code use*).

Your authorized Kia dealer is equipped to take care of your vehicle servicing needs. If you require additional assistance, please feel free to reach out to the Kia Customer Care Team online at kia.com (Owners>Contact Us) or via phone at 800.333.4Kia (4542).

Sincerely,

Customer Care Department

QR Code Use:

- A QR Code is a square, 2-dimensional barcode that can be read by mobile devices loaded with an appropriate barcode or **QR Code Reader App**. The app reads the barcode image and then launches/uploads the specific information the code contains, such as URLs, text, photos, videos.
- With a mobile device, **download a QR Code Reader App**. With many devices, you can do this through an app store or marketplace.
- **Open the QR Code Reader App on your mobile device**. The app will utilize your device’s camera. Center the code in the camera viewing area. With some apps, the URL or other information will automatically load when the code is recognized. For others, you may have to snap or take a picture of the QR code. Refer to the **QR Reader Code App instructions**.
