

Beginning January 30, 2023 IMMI's new Sabre seats will be available to select in RACE for use on all new orders for TBB products. The new SafeGuard Belt Ready (SBR) seats provide simple upgradability, SmartFrame Plus Safety and best-in-class maintenance accessibility.

With the release of the new IMMI Sabre seat, we will immediately discontinue the S3C, T3, IMMI FlexPlus and IMMI Xchange seat lines. We will continue to offer S3B seats for our products. The Sabre SBR seats will be replacing the S3C, IMMI FlexPlus and IMMI XChange seat lines. **SBR seat options have been priced to match to their equivalent S3C seat option.**

For quotes with start dates beginning March 6 – August 31, 2023:

- The TBB Product Planning team will begin sending requests for dealers to convert from S3C to SBR seat options. Not all quotes will be required to change as we transition this portion of our backlog. Please notify your product manager if you have orders in this time period that you want to convert to SBR.

For quotes with start dates beginning September 1, 2023 or later:

- You may now begin converting your affected quotes to SBR seat options. Change requests will be processed by priority based on the planned body start dates. Quotes with more distant start dates may be in change status for extended periods of time.

These required seat change orders are not subject to change order fees.

We will offer removable standard seats for special needs applications. Our proprietary STARS seat mounting technology, paired with any of our wheelchair restraining solutions, delivers the same capability as removable track seating, often at a better price and additional benefits (see additional information provided with this announcement). We will not offer track mounted SBR seats, so quotes currently configured with S3C track seat options are encouraged to convert to these alternatives. We are happy to help you find the optimal solution for your customers' needs and are ready to help address any potential concerns.

Please refer to the data book for pricing.
