

2021-2022MY Nautilus  
(SYNC)  
23-OTA- 3.5.3

Alexa Built-in

Most of Alexa Built-in has now been downloaded, with the final piece arriving in a few more days. Then you can wake Alexa up. Make a call, check the weather, interact with your smart-home devices, make a shopping list. Just about anything you use Alexa for at home, you'll be able to do in your vehicle. Plus, add Lincoln Streaming and listen to music and podcasts too.

Activate Alexa when the icon appears on your SYNC® Technology screen. Just click on it and follow the steps to register. Keep in mind that your Lincoln Nautilus™ SUV must have enhanced voice recognition and an activated modem. And, of course, you'll need an Amazon account.

Your first three years of Alexa access are on us (streaming media services not included). That three-year clock starts ticking the moment the Alexa icon appears, so don't wait to set it up.

Go to your Lincoln Account or Lincoln Way App™\* to learn even more.

Ongoing updates like this help you enjoy the best possible version of your Lincoln Nautilus™ SUV.

\*Lincoln Way App™, compatible with select smartphone platforms, is available via a download. Message and data rates may apply.

2021-2022MY Nautilus  
(TCU)  
23-OTA- 3.5.4

Small Improvements and bug fixes.

Ongoing updates like this help ensure that you'll always be driving the best possible version of your Lincoln Nautilus™ SUV.
