Until further instructions are received, new vehicles subject to this stop delivery order must be held and not delivered to customers, dealer-traded, released to auction, used for demonstration purposes or any other dealer use.

The Investigate Vehicle History (IVH) screen in the Global Warranty Management (GWM) system will be updated as "Stop Delivery" and Status as "Incomplete – Remedy Not Available" on February 16, 2023. This action has been taken to assist dealers with determining which vehicles are involved so they can properly respond to customer inquiries.

A list of involved vehicles that have been identified as being in dealer new vehicle inventory or in transit is attached to this message. Please verify a VIN's involvement by checking in IVH. IVH is the best source for individual VIN inquiries.
