REAR TAILLIGHT ACCESS PANEL REPLACEMENT INSTRUCTIONS

1. Removing the existing taillight access covers. (Figure 1)
 - A. Open the screw retainer to expose the five mounting fasteners.
 - B. Remove mounting fasteners to remove the taillight access cover.
2. Installing the new taillight access covers. (Figure 2)
 - A. Hold new taillight access cover in place and drill four mounting holes with .368 drill bit.
 - B. Install the push rivets to secure the taillight access cover.
3. Repeat for opposite side.

4. The finished repair should look like figures 3 and 4.

Jayco's sole obligation under our limited warranty is to repair or replace defective materials and/or workmanship deemed our responsibility as determined by Jayco in our sole discretion. Jayco reserves the right to use new and/or remanufactured parts or materials of similar quality to complete any work, and to make parts and/or design changes as appropriate without notice to anyone. Jayco designs and/or materials changes are done without obligation to incorporate such changes in previously manufactured product. Jayco makes every reasonable effort to ensure field remedies will not adversely affect performance and/or safety of the unit. This field remedy is not intended to extend to future performance of this RV, or any of its materials, components or parts beyond the standard warranty period. The RV owner's obligation to notify Jayco, or one of its independent, authorized dealers, of a claimed defect does not modify any obligation placed on the RV owner to contact Jayco directly when attempting to pursue remedies under state or federal law.
