VAG 1594/51 - Nano Measuring Cable

Technical Support

2304 USA Only

Porsche Special Tools & Equipment has recognized a need for the nano measuring cable VAG 1594/51. The measuring cable serves as a means of measuring the signals at the control unit directly on the contact (nano MQS 0.5mm x 0.4mm), also able to be used to pin-drag DME nano terminals. The measuring cable is a supplement to auxiliary measuring set VAG 1594D and can be allocated there with the gauge and adhesive label. The application of the measuring cables is described in the operating instructions of the auxiliary measuring set VAG 1594D. This will be delivered via automatic shipment as a minimum required tool (MRT). Shipments will begin CW08/23, Monday, February 20, 2023. For all questions related to Special Tools and Equipment, please create a PRMS ticket. Technical Support - Special Tools
