Re: MY23 Models – Important Update on Performance Accessory Calibrations

In November 2022, we communicated that several Performance Accessory Calibrations for applicable MY23 Models would not be available in Digital Wrench II until a later date.

We are pleased to announce that all Performance Accessory Calibrations for applicable MY23 Models are now available in Digital Wrench II.

Performance Calibrations for applicable **MY22 Models** will continue to be available in Digital Wrench II. This means that Performance Accessory components and Performance Accessory Calibrations can continue being installed on applicable **MY22 Models**.

Please contact Ask Polaris with any questions. Thank you for your partnership.
