\* Built at Oshawa Assembly Plant (11th VIN position "1")

<b>Involved Region or Country</b>	<b>North America</b>
<b>Condition</b>	A customer may ask about the lack of anti-chip coating on the lower painted surfaces of the exterior for trucks built at Oshawa.
<b>Cause</b>	<p>Please be advised that trucks built at Oshawa assembly utilize a powder anti-chip material process for stone guard protection, which does not have a textured appearance. The anti-chip performance meets all engineering criteria for durability and quality without a visibly textured surface.</p> <p>Trucks built at Flint, Fort Wayne, and Silao will have a textured appearance to the stone guard protection.</p>

**Correction:**

No repairs should be performed. PI will be converted into a bulletin.
