**UPDATED\***

## **ATTENTION: ALL DEALER PRINCIPALS**

Kia America, Inc. is conducting a Voluntary Service Campaign on certain 2022-2023 MY Telluride vehicles manufactured from September 10, 2021 through November 17, 2022\*.

Kia has become aware that certain 2022-2023 MY Telluride vehicles may have been produced with a drive belt that was not manufactured to Kia's specifications. Drive belts not manufactured to Kia's specifications may prematurely loosen or become damaged. A loose or damaged drive belt may result in a loss of A/C function, illumination of the battery light  and, if the vehicle continues to be driven after these warnings occur, potential overheating of the vehicle's engine.

Dealers will inspect the drive belt in the affected vehicles and, if necessary, based upon the manufacturing production lot, replace it with a new one. Only drive belts from specific production lots will be replaced under this Voluntary Service Campaign.

Your Service Manager was sent a copy of the owner notification letter and a Q&A Guide both of which describe the issue and information on how to access the list of affected vehicles. Kia already mailed notices to certain affected vehicle owners on January 11, 2023 and will mail notices to the additional affected vehicle owners on May 3, 2023\*.

### **What Should You Do?**
