

## OTA 2.0.61 Glass Cockpit enhancements and other user experience improvements

The image shows a screenshot of an OTA update notification on a dark background. At the top, there is a yellow circular refresh icon with a downward-pointing arrow. Below this, the text "UPDATES, PERFORMANCE IMPROVEMENTS & OPTIMIZATIONS" is displayed in a light gray font. The main body of the notification contains a paragraph and a bulleted list of updates. A vertical scrollbar is visible on the right side of the text area.

UPDATES, PERFORMANCE IMPROVEMENTS & OPTIMIZATIONS

With this update, we're making enhancements to the Glass Cockpit for your Lucid Air and other user experience improvements.

- We've enabled one-touch access to trip information via the home screen.
- We've improved the charge limit so it can now be set below the current battery percentage.
- Other minor updates and enhancements.
