

Subject <b>Brake Pedal Rattle Noise Over Bumps or Rough Roads</b>		Market <b>USA</b>
Service Category <b>Brake</b>	Section <b>Brake System</b>	
Applicability <b>20-22MY Corolla / HV</b>		

**APPLICABLE VEHICLES**

2020-2022	Corolla HV	2020-2022	Corolla
-----------	------------	-----------	---------

**CONDITION**

Some 2022-2022 model year Corolla and Corolla HV vehicles may exhibit a rattle noise coming from the brake pedal bracket assembly area.

**RECOMMENDATIONS**

Confirm the vehicle meets the following conditions:

- 1) Rattle noise is coming from the brake pedal bracket assembly area AND not from other areas of the vehicle
- 2) Mileage is under 20,000 miles
- 3) Vehicle has not had previous front brake repairs performed
- 4) Vehicle is located in California or Oregon

If the vehicle meets the above criteria, please create a TAS case.

TAS will provide further instruction.

If it is a weekend or holiday, continue with diagnosis and repair

If the vehicle does not meet the above criteria, please proceed to diagnose the vehicle using the applicable repair manual.
