

# Safety Recall 23KWB: Bendix 2.1m Medium Duty Brake Pedal Plunger

 [Edit](#)  [Clone](#)

---

## Number

23KWB / 23V087 / 2023-070

---

## Supplier

Bendix

---

## Description

Safety Recall 23KWB: Bendix 2.1m Medium Duty Brake Pedal Plunger

---

## Date

2/17/2023

---

## What's New

### **Safety Recall – Interim Notification**

The brake pedal plunger which connects the brake pedal to the brake valve may dislodge after the pedal is fully depressed, and rapidly released (side slip foot brake release). If the plunger in the brake pedal assembly dislodges the driver may be unable to apply the service brakes, which may increase the risk of a crash.

---

## Introduction

If the brake pedal plunger becomes disconnected or jammed, the operator may not be able to apply service brakes.

---

## Situation

4,209 (3,993 U.S. and 216 CAN) Model Year 2021-2024 T280, T380, and T480 chassis built between 06/17/2020 and 01/17/2023 with air brakes.

---

## Resolution

### **Safety Recall**

#### **INTERIM NOTIFICATION**

This is to inform dealers of the existence of a safety recall. This bulletin will be updated when repair

procedures are developed, and necessary parts are available.

## Federal Law

---

It is a violation of Federal law for a dealer to sell or lease new vehicles covered by this recall until the defect or noncompliance has been corrected.
