## Field Test Software Engine Control Module - Removal

### Parts Information

#### Ordering Process:

When ordering the engine emission label an E-service case must be started.

- Start an E-Service under the Parts Specifications Group.
- Reference the recall number in the description field of the E-Service.
- Parts Specification Group will recreate the label and FedEx it at no cost to the dealer.

Important Parts Note
<ul style="list-style-type: none"><li>• Include the VIN in the E-service case.</li><li>• The dealer will not be invoiced for the new label.</li><li>• The dealer will not need to complete the standard (Vehicle Certification Label Application)</li></ul>

### Required Tools & Equipment

- Premium Tech Tool (PTT) with latest version

### Calibration Information

- Accessory Kit: **85153362**

### Repair Procedure

1. Secure the vehicle for service.
2. Connect the latest version of Premium Tech Tool (PTT) to the vehicle.
3. Using Operation 1700-22-03-06, Run Accessory Kit:85153362
4. After programming is complete, clear any inactive DTC's that might have accrued during programming.
5. Remove emission exempt label from the valve cover and install provided emission label. Be sure the valve cover surface is clean and dry before applying the new label.
6. Return the vehicle to service.

If you have questions about the programming operation with PTT 2.8 visit
