EXTERIOR

Trim

Two trim color line-ups to choose from: black/red or silver (Port of Entry accessories). One provides a more sporty appearance while the other shows a more sophisticated appearance.

Body Kit Accessory Package

Front under-garnish, side extension, rear under-garnish with corner garnish body kit expresses the uniqueness of Eclipse Cross. Front under-garnish shows a daring mask and rear under-garnish consisting of three pieces, creating a sportier look. Side extension emphasizes the side view giving more presence to match the front and rear garnish.

Although the body kit extends vehicle length and a daring appearance, practicality standards such as original ground height, low aerodynamic noise, road driving capability, pedestrian safety features and collision safety features are unchanged. Owners can enjoy the exterior styling change without worrying about change in performance.

Since the side extension is installed on the outside of the door garnish, customers do not need to worry about their clothes getting dirty when getting in and out of the vehicle.

The mechanical structure enhances vibration resistance and are firmly fixed to the vehicle.

Tailgate Spoiler/Tailgate Lip Spoiler

The new tailgate spoiler with dynamic styling and lip spoiler design create presence and are available in all body colors.

Engine Hood Emblem

The engine hood emblem is available in two color options (silver and black).

Engine hood emblem

Door Mirror Cover

Black carbon-look and chrome covers are available to easily differentiate from standard styling.

Door mirror cover

Mud Guards (Front/Rear)

Mud guards can be installed with the body kit.

Mud guard

Rear Bumper Protector

Rear bumper protector has the same pattern and carbon-like appearance as the rear under-garnish.

Rear bumper protector

Body Side Decal

The body side decal is light reflective and the Eclipse Cross logo is also available.
