June 2023

This Notice applies to your vehicle VIN listed above.

Dear Forest River Customer:

Forest River is alerting you to a GM Safety Recall N222375270 involving certain 2022-2023 Rockport Work Trucks and 2022 Coachmen Entourage Class C Motorhome Recreational Vehicles. Please see the information below which describes the issue and provides you with details on the steps you should take to have your vehicle repaired.

### **WHAT IS THE ISSUE?**

These vehicles may have a brake pressure sensor assembly that allows brake fluid to leak beyond the diaphragm seal into the pressure switch. The brake fluid may seep into the sensor's electrical components and short the brake pressure switch and the associated fuse. If brake fluid shorts the brake pressure switch and the associated fuse, the circuit can generate excessive heat that could result in a fire, increasing the risk of injury. An under-hood fire may occur when the vehicle is off and possibly unattended.

### **OWNERS AND DEALERS: WHAT SHOULD YOU DO?**

Parts to repair your vehicle are not currently available, but when parts are available, your Chevrolet dealer will replace the master cylinder pressure sensor. Dealers will also inspect the associated wire harness and replace if necessary. This service will be performed for you at no charge. Please review and follow the notice that accompanies this letter.

Sincerely,

Forest River  
Office of Corporate Compliance

## IMPORTANT SAFETY RECALL

May 2023

This notice applies to your vehicle, VIN:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2022 model year Chevrolet Silverado vehicles equipped with a 6.6L Duramax Diesel engine. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

### IMPORTANT

- Your vehicle is involved in GM safety recall N222375270.
- Until the recall remedy is performed, owners are advised to park their vehicles outdoors. This condition may declare with a “service brake system” malfunction indicator lamp.

#### Why is your vehicle being recalled?

These vehicles may have a brake pressure sensor assembly that allows brake fluid to leak beyond the diaphragm seal into the pressure switch. The brake fluid may seep into the sensor's electrical components and short the brake pressure switch and the associated fuse. If brake fluid shorts the brake pressure switch and the associated fuse, the circuit can generate excessive heat that could result in a fire, increasing the risk of injury. An underhood fire may occur when the vehicle is off and possibly unattended.

#### What will we do?

**Parts to repair your vehicle are not currently available**, but when parts are available, your Chevrolet dealer will replace the master cylinder pressure sensor. Dealers will also inspect the associated wire harness and replace if necessary. This service will be performed for you at **no charge**.

We are working as quickly as possible to correct this condition. When parts are available, we will send you another letter asking you to take your vehicle to your Chevrolet dealer to have your vehicle serviced. You can also check the status of

this recall at: <https://my.gm.com/recalls>. If you have already paid for repairs for this condition, you may submit those charges using the reimbursement request form that will be provided with the next letter.

Until the recall remedy is performed, owners are advised to park their vehicles outdoors. This condition may declare with a "service brake system" malfunction indicator lamp.

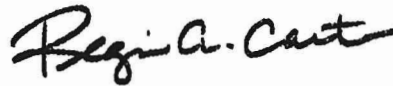

**Do you have questions?**

If you have questions or concerns that your dealer is unable to resolve, please contact the Chevrolet Customer Assistance Center at 1.800.222.1020 (TTY 711 / 1.800.833.2438).

For the hearing or speech impaired, please contact our Customer Assistance Center using the Telecommunication Relay Service by dialing 711 then providing the appropriate Customer Assistance Center number for your vehicle.

If after contacting your dealer and the Customer Assistance Center, you are still not satisfied we have done our best to remedy this condition without charge and within a reasonable time, you may wish to write the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE., Washington, DC 20590, or call the toll-free Vehicle Safety Hotline at 1.888.327.4236 (TTY 1.800.424.9153), or go to <http://www.nhtsa.gov>. The National Highway Traffic Safety Administration Campaign ID Number for this recall is 23V266.

Federal regulation requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.
