Dear INTERNATIONAL® Customer,

This notice applies to your vehicle identified on the enclosed card. This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

REASON FOR THIS RECALL

On certain trucks equipped with an automatic transmission, if the automatic transmission is still in drive or reverse position and the stationary variable engine speed control or stationary PTO switch is engaged, the engine RPM will ramp up and may overcome parking brake hold capability resulting in possible unexpected vehicle movement.

Unexpected movement of the truck can increase the risk of property damage or personal injury.

DEFECT REMEDY

The repair will involve updating the parameters in the Engine Control Module that enables the PTO neutral interlock. Authorized repair locations have software and instructions to repair your vehicle. The repair will be performed free of charge and take approximately 45 minutes to complete.
