### **Product Change Notice - Three Seasons Door fasteners**

Dear Valued Customer:

To improve product performance, Lippert intends to change the fasteners on Three Seasons Door handles and brackets from screws to rivets.

The rivets create a more secure assembly than screws, which have the potential to be cross threaded on installation at the plant.

There is no change for the customer in installation or operation. There is no part number change for the doors and no price change. The change is expected to begin on a running basis in about a week.

**Current bracket and handle with screws**

**New bracket and handle with rivets**

If you have any questions, please feel free to call me directly or your LCI representative. We value and appreciate your business and partnership.

Sincerely,

**Scott McKinnon**
