**Background**

American Honda Motor Co., Inc. (AHM) is searching for certain 2022-2023 TLXs with a client complaint of the ⓘ System Message Indicator coming on MID (Multi Information Display) with a warning message "Some Driver Assistance Systems Cannot Operate: Radar Obstructed," and/or one or more Millimeter Wave Radar DTCs listed below (in Qualifiers) stored. To better understand the cause of this condition, AHM would like to collect specific information from the vehicle prior to you attempting a repair of any kind.

**Qualifiers**

AHM is interested ONLY if the vehicle meets the following requirements:

- 2022 VINs must be AFTER 19UUB5...NA005544.
- Must have one or more of the following DTCs stored:

 P2583-76 (Temporary stop of Integrated Driver Support System:  
 Misalignment Millimeter Wave Radar)  
 P2583-92 (CMBS or FCW Over Working)
- Must confirm that the radar adapter is loose/not set to the radar bracket.
- Vehicle has not been involved in a collision.
- No repair has been attempted for this issue.

**Action Required**

If a vehicle matching the qualifiers above comes into your dealership, please e-mail Technical Information & Support (TIS) at [tis@ahm.honda.com](mailto:tis@ahm.honda.com), or call us at 800-880-1072 (Monday-Friday, 7am-5pm PST). As a gesture of appreciation to dealer technicians who identify and report a vehicle that meets the qualifiers, was accepted as a candidate and is the subject of a successful Dealer Visit/Parts Collection/Info Collection, AHM will provide the referring technician with a Visa gift card. Technical Information & Support (TIS) will provide additional information if this situation applies.

Thank you.
