## Crankcase Breather Limited Warranty Extension and What is Covered

Effective on July 10, 2023, for applicable vehicles, the New Vehicle Limited Warranty will be extended to cover repair or replacement (by an authorized Audi dealer) of a crankcase breather for a period of 15 years or 150,000 miles, whichever occurs first from the vehicle’s in-service date. The vehicle’s original In-Service date is defined as the date the vehicle was delivered to either the original purchaser or the original lessee; or if the vehicle was first placed in service as a “demonstrator” or “company” car, on the date such vehicle was first placed in service.

During the time/mileage period specified above, an authorized Audi Dealer will diagnose and replace the crankcase breather at no cost to the customer if diagnosis confirms that the crankcase breather has failed from a warranty defect.

If diagnosis reveals that the vehicle has an unrelated issue(s), diagnosis and any necessary repairs to correct such issue(s) will not be covered under this warranty extension.

### Additional information

This warranty extension does not cover damage or malfunctions caused by outside influence, such as an accident, or vehicle misuse or neglect, nor does it cover repairs that are necessary for proper diagnosis of these conditions or that are required to bring the vehicle up to factory specifications.

### Transferability

The warranty, as extended, is fully transferable to subsequent owners.
