

July 5, 2023

ATTENTION: ALL DEALER PARTS & SERVICE MANAGERS

Kia America, Inc. is conducting a Voluntary Emissions Service Campaign to inspect and, if necessary, replace the fuel filler neck vent collar on certain 2023 MY Sportage vehicles manufactured from November 17, 2022 through January 18, 2023.

Kia has become aware that some 2023 MY Sportage vehicles may have been equipped with a fuel filler neck vent collar that does not meet U.S. EPA regulations. If the vent collar port is partially blocked, it may cause the vehicle to release air pollutants which exceed Federal and California emissions standards. These standards were established to protect the public health and welfare from the dangers of air pollution.

Dealers will inspect the fuel filler neck vent collar. If the vent collar port is partially blocked, the fuel filler vent neck collar will be replaced at no cost to the customer.

The Technical Service Bulletin (TSB) that provides Vehicle Repair Procedures, Affected VIN Production Range, and Warranty Claim Information will be posted on the Kia Global Information System (KGIS) at www.kiatechinfo.com during the week of **July 5, 2023**.

Enclosed are samples of the Vehicle Emissions Recall Proof of Correction ("POC") Card, Campaign Completion Label ("Label"), and information on how to access the list of affected vehicles on WEBDCS. NOTE: The Proof of Correction Cards and Campaign Completion Labels are for California and S177 State dealers use only and can be ordered through the PDC.

Also enclosed, you will find a copy of the owner notification letter and a Q&A Guide for campaign questions, both of which describe the issue. **The owner notification will be mailed on July 7, 2023.**

Please start performing the repairs on any affected vehicles currently in your inventory prior to selling the vehicle to a retail customer.

For California Dealers ONLY

- The State of California has implemented the Registration Renew/Recall Tie-In Program that requires the completion of Emission Recalls prior to vehicle registration renewal.
- Be sure to provide a filled-out Emissions Recall Proof of Correction Card to each owner upon completion of the campaign for owner use as proof of completion during registration renewal. Instructions for filling out this card can be found in the TSB. It is also required to affix a Campaign Completion Label under the hood of the vehicle.

For Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, New York, Oregon, Pennsylvania, Rhode Island, Vermont, and Washington dealers ONLY:

- The above-named states require that a completely filled-out Proof of Correction Card be provided to each owner for use, if requested, at vehicle registration renewal. Instructions for filling out this card can be found in the TSB. It is also required to affix a Campaign Completion Label under the hood of the vehicle.

Please make certain the appropriate personnel in your dealership are familiar with the details of this campaign to ensure proper responses to customer inquiries and requests to have the campaign performed on their vehicles.

LEGAL PRIVACY LIABILITY NOTICE: Pursuant to the terms of the Dealer Sales and Service Agreement and the Gramm-Leach-Bliley federal consumer privacy act, you are required to keep confidential any and all information and documents provided to you by Kia America, Inc. or generated by you in the conduct of carrying out work under that Agreement regarding Kia vehicle purchasers and owners, including but not limited to warranty claim information. Kia dealers may use such owner information for the sole purpose of conducting and performing this voluntary emissions recall campaign, and for no other purpose.

Your prompt attention in completing this campaign is appreciated. If you have any questions, please contact your Kia District Parts & Service Manager.

Sincerely,

Kia Service Department
