# Rapid Update 634 GranTurismo – TCM Software Update

TECHNICAL SERVICE OPERATIONS

DATE: JUNE 7 2023

Certain Maserati GranTurismo (M189) MY24 listed in MODISCS+ are involved in a Rapid Update concerning the Transmission Control Module (TCM) software update.

This update is needed to correct a non-compliant software version loaded into the TCM of very few vehicles.

We remind you that all the Rapid Updates must be performed within the first workshop visit, regardless of the Mandatory setting set in Modis, as required by Maserati policies.

Also, for vehicles in Stock Dealer / PDI, it is necessary to carry out all action operations before delivery to the end customer, as required by the White Book and explicitly reported in the Pre-delivery checklist.

**Please read and review this bulletin first before starting the procedure.**

Contact your Regional AfterSales Manager (RAM) or the Technical Support Helpdesk if you have any questions. ([Maseratitechsupport@maserati.com](mailto:Maseratitechsupport@maserati.com))

Thank You for your continued support and cooperation.
