Background

American Honda Motor Co., Inc. (AHM) is searching for certain 2017-2021 Civic Type R with a customer complaint of the vehicle Malfunction Indicator Light (MIL) with DTC P0300 (Random Misfire Detected) and/or P0304 (No. 4 Cylinder Misfire Detected) stored. To better understand the cause of this condition, AHM would like to collect specific parts from the vehicle prior to you attempting a repair of any kind.

Qualifiers

AHM is interested ONLY if the vehicle meets the following requirements:

1. Must only have DTC P0300 and/or P0304 stored.
2. If P0301, P0302 or P0303 are stored, the vehicle does not qualify.
3. Must confirm there is no deformation or chipping around the plug top coil seating area.
4. Previous replacement of the cylinder head cover, plug top coil, or spark plugs are accepted as long as it's disclosed.
5. Vehicle has not been involved in a collision.
6. No repair has been attempted for this issue.

Action Required

If a vehicle matching the qualifiers above comes into your dealership, please e-mail Technical Information & Support (TIS) at tis@ahm.honda.com or call us at 800-880-1072 (Monday-Friday, 7am-5pm PST). TIS will need to record certain vehicle information and provide you with further instructions.

1. Model Year (e.g. 2023)
2. Model Name (e.g. Accord)

Technical Information & Support (TIS) will provide additional information if this situation applies.

Thank you.
