Scheduling In-Vehicle Is Easier Than Ever

We know how important it is to keep your Lincoln vehicle up to date with the latest software enhancements and features. We've streamlined the entire process to make scheduling Lincoln Enhance software updates in-vehicle as easy as can be.

First, we've simplified the recurring update scheduling screen. Here you'll find preselected days and times based on our recommendations that you can quickly choose from. Of course, you can still pick to create a custom schedule to better fit your lifestyle.

Set a Recurring Update Schedule and keep Automatic Updates turned to ON, both of which can be found in settings under Software Updates. If you do, most updates happen seamlessly in the background while you are driving.

Other updates require your vehicle to be parked and can occur without you having to do a single thing.. It's convenient and comprehensive.

Lincoln Enhance delivers software updates that are designed to make your Lincoln Nautilus® SUV better over time.
