**Background**

American Honda Motor Co., Inc. (AHM) is searching for certain 2023 HR-Vs & CR-Vs with a customer complaint of the SRS light on with one or more of the DTC listed below (in Qualifiers) stored. To better understand the cause of this condition, AHM would like to collect specific parts from the vehicle prior to you attempting a repair of any kind.

  - B0001-1A (Decreased Resistance in the Driver's Airbag Primary Inflator)

- Issue has been traced to the airbag or the cable reel.
- Previous replacement of the cable reel and/or airbag is acceptable as long as it's disclosed.
- Repeated failures are acceptable.
- Confirmed corroded or damaged conditions of the airbag pins are acceptable as long as failure is present.
- Vehicle has not been involved in a collision.
