This letter applies to your vehicle. Refer to the provided list.

Dear Altec Owner,

Altec Industries, Inc. has developed a product improvement as described in the included Service Information Letter (SIL). According to our records, you own one or more units this applies to.

Refer to the included letter for the items covered under the Altec Warranty Policy. If you had this repair performed before you received this letter, you may be eligible to receive reimbursement for the cost of obtaining a pre-notification remedy of the problem associated with this letter.

Compare your unit's identifying information with the provided list to verify your unit is affected. You may also contact Altec or view your fleet through Altec Connect to determine if there are any other outstanding notices.

If you have sold or retired the unit, update the records through Altec Connect. If you have leased this equipment to another person or company, you are required by Federal Law to forward a copy of this notice to the lessee by first class mail within ten (10) days of the receipt of this notice.

We regret this inconvenience; however, we are taking this action in the interest of your safety and continued satisfaction with Altec products.

Thank you for your immediate attention on this important matter.

Crane and Unit Simultaneous Operation

Units Affected: Certain Altec units equipped with Venturo, Liftmoore, and Autocrane service cranes built from March 2009 to August 2022. Verify your unit is affected by reviewing the attached list or accessing Altec Connect.

Background: Altec has learned that operators may be using the crane and unit simultaneously on the affected units. These units were designed for single use of the crane or the unit, not simultaneous operation. To promote proper unit operation, Altec has developed an operator aid and new placards outlining the usage of the crane and unit.

Customer Action: Order and install the Interlocking Hardware and Placard Kit, part number 991605006, or schedule the installation of this kit by Altec. The kit must be installed by the next preventive maintenance interval or within 90 days of receipt of this notice, whichever comes first.

Subsequent damage due to failure to perform the required action(s) in the time period allowed will not be covered by warranty.

Requirements: Every affected unit requires the installation of the proper kit for completion. This work is estimated to take 1 hour and 1 person to complete.

Completion and Warranty: The repair is covered under the Altec Warranty Policy and can be performed by Altec, the customer, or the customer's warranty provider. Altec will perform the work for free at an Altec facility. If the customer or the customer's warranty provider performs the work, a warranty claim must be submitted to be reimbursed for the cost of the parts and/or labor. Altec will allow up to \$90.00 for the labor to perform the repair. Customers are responsible for the travel costs of an Altec Mobile Service technician if the technician performs the work at the owner's location.
