Case Number: S2308000108

Release Date: August 2023

Symptom/Vehicle Issue: Request to Add Tire Pressure Monitoring on Cab and Chassis Model DD or DP

Technician Observation: The technician and owner would like to add a tire pressure monitoring system to a cab chassis vehicle.

Discussion: The TPM system is not an offered option on 2023 DD and DP Cab Chassis vehicles. Our findings found that aftermarket upfits added to these heavy-duty vehicles commonly interfered with our system's need for a clear signal from the rear tire pressure sensors.

Because these cab chassis vehicles are modified by the aftermarket, we do not offer an available option for adding a TPM system.

This document does not authorize warranty repairs. This communication documents a record of past experiences. STAR Online does not provide any conclusions about what is wrong with the vehicle. Rather, it captures all previous cases known that appear to be similar or related to the vehicle symptom / condition. You are the expert, and you are responsible for deciding on the appropriate course of action.
