

## **SSM 51944 2022-2023 Escape/Bronco Sport - 1.5L - Various Driving Performance Concerns Due To Fuel Quality**

---

2022-2023 Escape and Bronco Sport vehicles equipped with 1.5L engines should add local fuel once the vehicle arrive to the dealership to reduce the risk of driving performance issues such as: rough operation, idle quality, engine misfires, lack or loss of engine power. These conditions may occur due to different fuel specifications between manufacturing plant and final market. Make sure that the vehicles in stock have local fuel added
