

SUNGLASS HOLDER REPAIR PARTS KIT

Customer Voice:

- The sunglass holder won't open or does not operate correctly.

Technical Description:

- The sunglass holder may become jammed from sunglasses that are too large or trying to fit multiple pairs of glasses in the holder, which can lead to hinge pin distortion.

Status:

- Lower level service repair kits are available to repair sunglass holder operation concerns without the need to replace the complete overhead console.
- For diagnosing sunglass holder operation concerns, please refer to the **Workshop Manual** section **501-05 Interior Trim Inspection > Diagnosis and Inspection**.
