WHAT'S IN THIS UPDATE?

Ford Power-Up 6.3.0

There's some good stuff here.
Easy on the eyes.
You may have noticed that things look a little different on your vehicle screen today. That's because we're continuing to improve the modern design to make it simple to navigate and find what you're looking for.

A few changes you'll notice include a smaller top bar, and we've moved some icons to make it easier to view. A dedicated user profile button has even been added.

Smart Changes to Phone As A Key
Setting up Phone As A Key just got easier. That's because you can now edit and save your Phone As A Key settings from the driver profile screen in-vehicle. To manage your Phone As A Key settings in your driver profile, go to Personal Profile > Edit > Phone in your vehicle's SYNC® screen.

You may also set up automatic sign-in so that your driver profile is ready as soon as you enter the vehicle.

| Home | Vehicle | Service | Map |

You may also set up automatic sign-in so that your driver profile is ready as soon as you enter the vehicle.

Step up to the mic
All Ford F-150 Lightning customers are now able to share instant feedback with Ford, by recording and sending voice feedback from the convenience of your vehicle. Available in the U.S. only and requires FordPass® Connect modem activation.

We will use this feedback to help make quality and design improvements. If you have a safety or service-related concern, please contact your dealer or the Customer Relationship Center.

To get started, simply go to the Features tab or App screen in-vehicle and tap on Record Feedback.

We look forward to hearing from you.

Details matter
This update helps make it easy for you to review your charging session summary, including the state of charge, cost, distance added, charge time and even the balance on your subscription (if applicable).

Improvement to conditions not met alerts
With this update, you'll now receive new pop-up alerts to inform you when a condition is not being met so that you can take the required action to receive your vehicle software update.

For a non-drivable update, conditions may include that your vehicle is parked, it's not running, all the lights are off, doors and trunk are

We look forward to hearing from you.

Improvement to conditions not met alerts
With this update, you'll now receive new pop-up alerts to inform you when a condition is not being met so that you can take the required action to receive your vehicle software update.

For a non-drivable update, conditions may include that your vehicle is parked, it's not running, all the lights are off, doors and trunk are closed, and you're not pressing the brake pedal.

Selectable Drive Modes
We've made some changes to the messaging for different drive modes. You should not see a fault message if a drive mode times out.

Ford BlueCruise Map Update
If your vehicle is equipped with Ford BlueCruise: We've made updates to your Ford BlueCruise map expiration to help keep things running smoothly.

Ford Power-Up delivers software updates that are designed to help make your Ford F-150® Lightning® truck better over time.
