

Manufacturer's Communication to Dealer

October 10, 2023

Dear Tiffin Motorhomes Dealer,

Please check the placement of the cooktop LPG line on any 2017 – 2020 Wayfarer Motorhomes, equipped with either a countertop garbage chute **OR** an under the counter mounted microwave, that comes into your service center for repairs.

The LPG line should be fastened away from the garbage chute and/or the under the counter mounted microwave oven so that it does not rub against a metal surface. The line may be secured by attaching a bracket to any wooden surface in the undercabinet area. Wire loom should also be installed on the LPG line.

Tiffin Motorhomes is allowing 0.50 hours to make the inspection and repair, plus the needed shop supplies.

If you have a Wayfarer that is repaired, please file a warranty claim using the flat rate code WF9501DC03, for 0.50 hrs. ***No authorization is required for work completed at the flat rate times stated on the work instructions.*** Please list ***"MCD01"*** as the authorization on the claim for payment.

This job repair will expire on October 30, 2025. Please make sure that this repair is completed prior to this date. Work completed after this date will be done at the customer's expense.

Thank you for your attention to this matter,

Tiffin Motorhomes
