		from	to	from	to		
GMC	HUMMER EV	2022	2024	-	-	-	-
	HUMMER EV SUV	2024		-	-	-	-

<b>Involved Region or Country</b>	United States, Canada, Middle East
-----------------------------------	------------------------------------

### Information

**Important:** Service agents must comply with all International, Federal, State, Provincial, and/or Local laws applicable to the activities it performs under this bulletin, including but not limited to handling, deploying, preparing, classifying, packaging, marking, labeling, and shipping dangerous goods. In the event of a conflict between the procedures set forth in this bulletin and the laws that apply to your dealership, you must follow those applicable laws.

**Important:** This technical service bulletin (TSB) can only be completed by certified repair facilities who have met all specific training, tool and equipment requirements pertaining to the vehicle Brand and Model serviced. Repairs must be performed by a technician who has successfully completed the required training.

6464464

When servicing the BCM, you may notice the presence of an orange High-Voltage warning label on the X6 connector wiring branch.

The High Voltage label was inadvertently added to the X6 branch of the BCM wiring.

**Important:** There is NO high voltage wiring in any of these circuits.

Remove and discard the orange High Voltage warning label.

Version	1
Modified	Released October 19, 2023

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, **DO NOT** assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
