GMC	Yukon XL	2022 - 2023	All	All	All	All

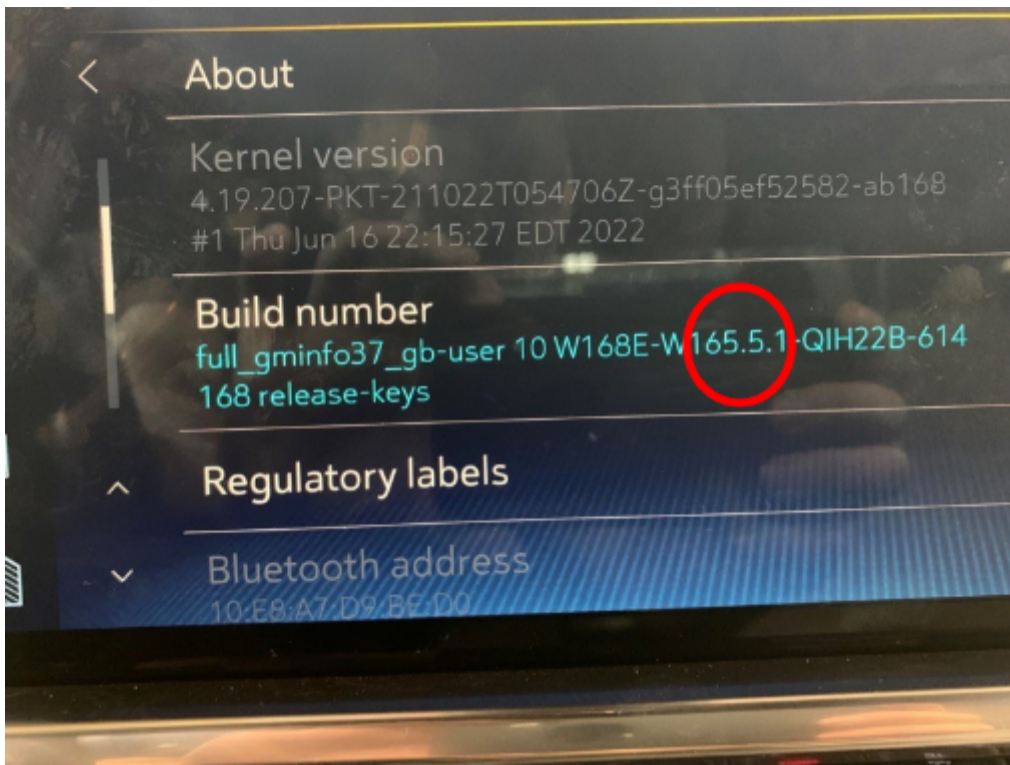

Involved Region or Country	North America
Additional RPO	IOK
Condition	Customers may notice a black screen on their radio display. This can happen for a period of a couple seconds or the entire ignition cycle.
Cause	Engineering is aware of the issue and investigating

Correction:

Confirm with the customer the frequency of the black screen.

We are targeting vehicles with multiple black screens in one week.

If so, inspect the current radio software version. Navigate to Settings -> About -> Build Number -> Information "i" to view and verify the software version.

Note: the picture above is an example for where to look for the software version number, The version pictured (W165) would not apply to this bulletin.

If the build number is equal to or greater than Y167. Contact TAC and start a case referencing this PI.

Dealers are not to replace the radio at this time and are asked to verify concern

Warranty Information

For vehicles repaired under the Bumper-to-Bumper coverage (Canada Base Warranty coverage), use the following labor operation. Reference the Applicable Warranties section of Investigate Vehicle History (IVH) for coverage information.

Labor Operation	Description	Labor Time
3487998	Verify intermittent black display screen on IOK radio	0.2 Hr.
*This is a unique Labor Operation for Bulletin use only.
