

Preliminary Information

PIT6080 Service Drivers Assist Message Temporary Display On IPC Models

Brand:	Model:	Model Years:	VIN:		Engine:	Transmissions:
			from	to		
Chevrolet	Silverado EV	2024	All	All	All	All

Involved Region or Country	North America
Additional Options (RPO)	UGN - ENHANCED AUTOMATIC EMERGENCY BRAKING
Condition	A customer/driver may comment of a "Service Drivers Assist" message that temporarily displays during vehicle start or when driving. There may be history DTC's stored in either the short or long range radar's
Cause	This is due to a Software Anomaly with the vehicle

Correction:

If you experience this concern and all the active safety functions and adaptive cruise control are working correctly. Please do not replace or program any modules.

GM engineering is aware of the issue and working on new software that will address this concern. A targeted release is scheduled for the 4th quarter of 2023. This Pi will be updated or a bulletin will be released when a fix becomes available.

Note: If you experience a "Service Drivers Assist" message that has current DTC's, please refer to SI for normal diagnosis.
