Documents

Document name
master.xml

Notes

Technical background

Unable to operate convertible roof due to tonneau cover to rear bow clash. The reinforcement plate inside the roof which assists the smooth operation of the system deforms and catches between the frame and the hood. This clash condition if not prevented could also result in damage to the hood frame tension straps.

Only affects convertible roof systems in persistently hot countries therefore this document is only applicable to the following regions:

California, Florida, Central America, South America, Middle East, India, Africa, Australia and New Zealand

Revision history

2043406/3 - Header data modified to remove all model years post 2011

Remedy

A new elasticated strap introduced between the reinforcement plastic plate and the rear bow ensuring the plastic plate does not foul the bow

Customer notification

Customers do not need to be informed directly of this campaign. Please ensure that all affected vehicles are checked and repaired during the next service visit. You should also inform your new and used car sales departments so that the vehicles affected can be checked and, if necessary, repaired immediately (and not just before sale)

Warranty

Warranty Type 790 or 710
 Labour Operation Code 61 01 41 99
 Damage Service Number EA59
 Damage Code 00 66
 Time 40 TU
 Criteria ID 01

Parts

The required replacement parts should be ordered from Bentley Motors Limited Crewe or through your regional Bentley parts distribution centre

Parts supply

Part number	Description	Quantity
3W0871589	Tension strap	2
WKN070021 for position A	Rivet (N 4mm x 10.5 steel)	2
WKN070058 for position B rear bow end	Rivet (3.2mm x 13.5)	2
WKN070030 for through plastic stiffener	Rivet (3.2mm x 9.8)	2
NBC876865A	Washer 12 x 3.3 x 1	2
WSK013305A	Tape	1 roll will do many cars

Check

If the vehicle is not already listed as repaired in the "Repair history" (in Elsa pro), check for the presence of the new strap, part number 3W0871589 (see Figure 13), should neither be evident carry out the required work in accordance with these instructions. Note: on cars prior to 09MY check that TPI 2029949 Convertible roof system 07MY and 08MY- Service upgrade has been performed if not please encourage customers to take this opportunity to have this service upgrade performed

Parts

The required replacement parts should be ordered from Bentley Motors Limited Crewe or through your regional Bentley parts distribution centre

Work

On cars prior to 09MY check that TPI 2029949 Convertible roof system 07MY and 08MY- Service upgrade has been performed if not please encourage customers to take this opportunity to have this service upgrade performed

Note: The following procedure details the operation on the left hand side of the hood system. The same procedure must also be performed on the right hand side

Figure 1

Note: Operations 1 through 5 are to enable the hood lining to be released to gain access to the inner lining

1. Where necessary attach a marker ribbon to the cords to aid routing when refitting (see Figure 1)

Figure 2

2. Position the convertible roof to enable access to rivet 'A' (see Figure 2)
3. Remove rivet 'A'

Figure 3

4. Unclip the headliner from the roof frame (see Figure 3)

Figure 4

5. Remove fastener 'B' to release cord and tape secured at 'B' allowing trim C to be pulled back (see Figure 4)

Figure 5

Figure 6

6. Inside the insulation pad of the hood inner liner is a plastic reinforcement plate, locate this plate the stitching highlights the outline (see Figure 5 and 7). Once located measure off the dimensions shown on figure 6. Alternatively align the first hole (J) in the new strap with the stitching and mark the hole position at 'K' using the second hole in the strap (K)

Figure 7

7. At the point marked (K) drill a 3.5mm hole through inner cover and through the plastic reinforcement plate **NOTE: CARE MUST BE TAKEN TO AVOID DRILLING THROUGH THE OUTER COVER**

Figure 8

8. When positioning the new strap prior to riveting ensure the orientation is correct: The long strap end should not be folded over at 'F' and the crimped ferule (E) should be position so as the cut end of the round section elastic strap (G) is facing away from the hood inner liner this avoids high spots showing on the outer surface of the hood (see Figure 8)

Figure 8a

9. **Note:** A running change has been introduced to the new strap to reduce the possibility of noise from the ferule (E) rubbing on the hood inner liner. This change is simply wrap two layers of tape (part number WSK013305a) around the ferule (E) this running change should be applied when this campaign is carried out (see Figure 8a)

Figure 9

10. Take the long end of the new strap (part number 3W0871589) not folded over place the washer (part number NBC876865A) followed by rivet (WKN070030) through hole 'K' in the strap then position in the previously drilled hole (see Figure 7,8 and 9) **NOTE:** Figure 9 shows the strap in the optimum position for riveting, figure 11 is the reference for the correct final routing which is under bow 5 and 6

Figure 10

11. engage the rivet to secure the strap (part number 3W0871589) into the reinforcement plate (see Figure 10)

Figure 11

12. Once riveted route the new strap (part number 3W0871589) ensuring it routes under bow 5 and 6 (see Figure 11)

Figure 12

13. With the headliner unclipped from the rear bow (A) locate position (B) on the rear bow remove the rivet securing original strap at point (B) (see Figure 12)

Figure 13

14. At the rear bow (A) Re make connection at (B) adding the other end of new strap, short end,(part number 3W0871589) with the original strap (D) (see Figure 13)

Figure 14

15. When positioning the new strap at the rear bow prior to riveting ensure the orientation is correct: The short strap end should be folded over (see Figure 14)
16. Carry out the same procedure for the right hand side of the hood system
17. Refit all removed trim and re connect and rivet where necessary removed cords and straps

Identification

The presence of the new strap (part number 3W0871589) will serve to identify the campaign has been performed (see Figure 13)
